

[InfoAnyTime](#) is a real-time, free online reference service with live librarians. It is offered statewide. [InfoAnyTime](#) reference librarians can assist you late at night and at 5 am, when the library is closed. Click on the [InfoAnyTime](#) link, enter your name and email address (optional). A reference librarian will help you via online chat, and provide answers and further resources in the form of web sites and online database citations. These online resources appear directly on your screen, next to the chat session window. You may interact both with the web sites provided and with the librarian until your question has been answered satisfactorily. At the end of each session, you will receive a transcript of the session via e-mail.
