

Use your email address to receive information from the library regarding your account

Would you rather an email than a telephone call or letter when an item you've placed on hold is ready for pickup or a book is overdue? If so, you can register your email address by going to our website and using your library barcode, log in to your account. There you will find a link "Change Personal Info." From there you go to the next page, "Modify Patron Information." **You will be able to change your telephone number and enter your email address ONLY.** To change your mailing address, you will need to notify the library.

Please note: By entering your email address, all written and/or phone messages from the library will now be sent via your email address only.
